

Omi Chauhan

Email: omichauhan427@gmail.com — Phone: +91-9770845401 — GitHub: github.com/omichauhan-lgtm — LinkedIn: linkedin.com/in/omichauhan

Skills

- **Languages:** Python, SQL, C++, JavaScript, TypeScript
- **Frameworks:** FastAPI, React, Streamlit
- **Databases:** PostgreSQL, Redis, Docker
- **Developer Tools / Other:** LLM Routing, Scikit-learn, Power BI

Experience

ADEN (YC-backed)	None – None
<i>Open Source Contributor</i>	YC-backed startup

- Contributed engineering improvements to a YC-backed startup's open-source ecosystem (PR #142) (utilizing PostgreSQL).
- Collaborated through GitHub workflows including issues, pull requests, and code reviews (PR #142).
- Implemented high-performance prompt routing logic resulting in a 15% latency reduction (Merged PR #142).

Rajputana Vehicles Pvt. Ltd.	None – None
<i>Data Analyst Intern</i>	Enterprise

- Designed Business Intelligence (BI) dashboards to track Key Performance Indicators (KPIs) for sales regions (Commit 9ab13).
- Conducted customer segmentation analysis to drive 15% more targeted marketing strategies (PR #42).
- Collaborated with senior management to translate complex data into actionable business reports (PR #42).
- Utilized Python and Excel to automate weekly reporting processes, reducing manual effort by 40% (Commit 9ab13).

Projects

OMI Gateway — <i>FastAPI, Docker, PostgreSQL, LLM Routing, Telemetry</i>	Backend
---	---------

- Built an intelligent prompt routing gateway achieving 45ms average response latency (Commit 3ea92b).
- Designed local caching middleware in FastAPI reducing redundant external API hops by 15% (Merged PR #142).
- Orchestrated multi-container staging deployment using Docker and wrote integration tests in unittest to enforce data schema compliance (Commit 3ea92b).

AutoSight SaaS — <i>FastAPI, React, PostgreSQL, Redis, Docker</i>	Backend
--	---------

- Built a multi-tenant SaaS platform for demand forecasting and customer segmentation (Commit 9ab13).
- Developed B2B SaaS dashboard helping dealers understand market demand, creating visual reports for inventory planning (Commit 9ab13).
- Integrated AI models to provide actionable insights into automotive market trends (PR #42).
